***DETAILED ACTION***

1. Claim 29 is canceled in examiner's amendment.
2. Claims 8-9, 11-16, 19-21 and 27-28 are allowed over art.
3. Claims 1-7, 10, 17-18 and 22-26 are cancelled by applicant.

***Information Disclosure Statement***

4. A Request for Continued Examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application for the consideration of the information disclosure statement (IDS) submitted on 23 September 2009. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.
5. All the references listed on the IDS are related to content protection, especially NPL reference "Intellectual Property Rights Management for MPEG-4: The InterTrust Commerce Architecture (Copyright 1997 of InterTrust, the same assignee as the current application) is related with protection of content in MPEG-4. But none of the references listed on the IDS disclose the features of control information including at least one key suitable for decryption of at least a portion of content, and a first rule or rule set including at least one rule specifying that the content can only be decrypted on a system having a predefined system identifier, a second rule or rule set governing at least one aspect of usage of at least one sub-stream or object, wherein the second rule or rule set includes at least one rule stored in a non-volatile memory internally integrated with the player; and means for enforcing the first rule or rule set and the second rule or rule set,

the means for enforcing including means for selectively passing at least one key to a stream controller in accordance with the first rule or rule set in combination with all other limitations recited in independent claims of the current application.

***Terminal Disclaimer***

6. The terminal disclaimer filed on 26 January 2009 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on pending reference U.S. Application No. 11/747,781 and 11/827,856 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Double Patenting***

7. As a result of the above approved terminal disclaimer, the examiner withdraws the pending nonstatutory obviousness-type double patenting rejection.

**EXAMINER'S AMENDMENT**

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Mr. Darrell D. Kinder, Jr. (Registration No. 57,460) on 12 June 2009. The amendment is to cancel the non-

elected claim. As per MPEP 713.04, a separate interview summary form is not provided because the content of the interview has been summarized herein.

The application has been amended as follows:

**IN THE CLAIMS:**

- Please **cancel claim 29**

***Reasons for allowance***

9. The following is an examiner's statement of reasons for allowance: the prior art of record does not explicitly teach or fairly suggest, either individually or in combination, the features of control information including at least one key suitable for decryption of at least a portion of content, and a first rule or rule set including at least one rule specifying that the content can only be decrypted on a system having a predefined system identifier, a second rule or rule set governing at least one aspect of usage of at least one sub-stream or object, wherein the second rule or rule set includes at least one rule stored in a non-volatile memory internally integrated with the player; and means for enforcing the first rule or rule set and the second rule or rule set, the means for enforcing including means for selectively passing at least one key to a stream controller in accordance with the first rule or rule set recited in the independent claim 8. Therefore, Claim 8 is deemed allowable over the prior art of record.

The corresponding dependent claims further limit claim 8. Thus, they also contain allowable subject matter by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Allowable Subject Matter***

10. Claims 8-9, 11-16, 19-21 and 27-28 are allowed.
